

Green Advantage® (Dual) Commercial/Residential Exam Prep Course

<<<CILB Approved for 7-8 hours of Continuing Education at no additional charge!>>>

Provider # 0000862 Course # 0010929

The C.E.S. Green Advantage® Training and Certification Program will not only help achieve a passing grade on the Green Advantage® (Dual) Commercial/Residential exam but will also provide members of the Construction Industry with state-of-the-art instruction on proven residential and commercial Green Building techniques and approaches. Areas of emphasis include:

- Site Selection (developing appropriate sites) • Energy Conservation as it applies to framing, insulation, windows, water heating, appliances, heating/cooling and lighting • Resource Conservation (job-site waste/recycling, landscaping, water, durability, and material choices, indoor air quality)

Green Advantage® Certification helps builders get jobs, contractors win bids, and allows building occupants to enjoy healthier, more efficient homes and buildings.

Note: Individual Green Advantage® exams are offered nationwide at conveniently located testing centers.

Attending a training program is not required for the exams but is always recommended.

This certification is a great opportunity for:

- Architects • Builders • Sub-contractors • Project Managers • Engineers • Trades-People • Superintendants • Foremen
- Line-Personnel • Re-modelers • Realtors • and other building related practitioners.

About the Course:

This course focuses on getting you to pass the Green Advantage® (Dual) Commercial/Residential Certification Exam. It covers information on how human activities affect the green environment and provides an overview of the best practices for building the green environment. It also gives you an introduction to the LEED Green Building Rating System for construction workers.

(Enrollment includes a DVD equivalent to one-day classroom instruction. \$100 refundable will be require for DVD.)

The Difference between LEED and Green Advantage®:

Being a LEED AP indicates that the individual has the knowledge from inception to design, construction, and final commissioning, following proven sustainable building principles. Having the Green Advantage® Certification indicates the individual demonstrates knowledge of current green building principles, materials, and techniques.

Don't lose contracting work because you're not Green Advantage® Certified.
