Re: Letter of Recommendation

This past December I took the State Certified Contractor's exam (business and trade portions) and passed both portions thanks to the preparation I received at the Contractor's Exam School. As a practicing mechanical engineer I had previous exposure to the codes and design procedures of the trade but very little experience with troubleshooting, equipment, and safety issues which make up a large part of the examination. I would have to say that the study procedures and review materials provided by CES along with Mr. Dausch's indispensable first hand knowledge of the subject matter and testing procedures were the key to preparing for and passing the exam.

Due to the completeness of the review provided for both the business and trade portions I highly recommend that anyone planning to take the exam enroll in your course. Again, many thanks to your staff.

Sincerely,

A handwritten signature in cursive script that reads "Paul Gandy". The signature is written in black ink and is positioned above the printed name and title.
