Re: Passing the State Exam

Dear CES,

I want to thank you for your excellent course. Given the three short weeks I had to prepare, it would be euphemistic to say I was intimidated when first I saw all of the references required for the exam. Nevertheless, by simply following your curriculum, I felt well prepared and confident when I sat for the test.

The results were Business and Finance 94, Contract Administration 86, and Project Management 85, all on my first sitting. I recognized more than half of the questions on the test from your simulated exams and practice quizzes. I also found at least six questions that I would have answered incorrectly, due to tricky wording, even by referring to the appropriate references. But the excellent guidance and pointers I received at your seminars helped me avert each pitfall.

Thanks CES, I couldn't have done it without you. I will enthusiastically recommend your course to anyone that needs to make sure they pass this test.

Best regards,

Peter Mendez,
President
