I'd just like to thank your school for the fine preparation they do for the state contractors exam. I took the August 13th & 14th General Contractors Exam and passed it the first time. (81 % , 85% and 92%). The information you teach is invaluable and the seminars are a must. Couldn't have pulled it off without your course. I found alot of the questions on the exam to be verbatim with your course. I can't thank your school enough. I look forward to my continual education with you guys and once again Thank you.
