Paul is a registered PROFESSIONAL ENGINEER in Florida, Georgia, Maryland and New York. Paul is a - LEED Accredited Professional & holds Contractor Licenses for Florida General Contractor, Roofing Contractor, Underground Utility Contractor & has passed the exams for State Pool Contractor, Building Contractor, Specialty Contractor & County Aluminum, not activated.

Jose F. Uz, Ph.D. - Registered Wood Destroying Organism Inspector since 1993, lincensed Roofing Contractor since 1998, Certified Housing and Design Consultant since 2000, and Certified Pest Control Operator. Dr. Uz has been holding training seminars in different areas of the home inspection business since 1998. He has supervised tens of thousands of inspections as well as roofing and fumigation projects over the years while successfully operating a major South Florida firm in 15 Floridian Counties.

ABOUT THE WIND MITIGATION INSPECTOR COURSE.....

You will receive the technical training you will need to complete the uniform mitigation inspection form required by the Homeowner Insurance Industry. You will become a **Certified** Wind Mitigation Inspector. Current law allows General, Building and Residential contractors to sign off on the forms, also Architects and professional Engineers. **NOTE:** The Wind Mitigation Inspector certification issued by C.E.S. does not require payment to any organization for performing an inspection.
